

UNPUBLISHED

UNITED STATES COURT OF APPEALS
FOR THE FOURTH CIRCUIT

No. 14-7744

UNITED STATES OF AMERICA,

Plaintiff - Appellee,

v.

ASMAR NAFIS NEWSOME, a/k/a Shorty,

Defendant - Appellant.

Appeal from the United States District Court for the Eastern District of Virginia, at Newport News. Robert G. Doumar, Senior District Judge. (4:10-cr-00053-RGD-FBS-1; 4:14-cv-00129-RGD)

Submitted: March 17, 2015

Decided: March 20, 2015

Before WILKINSON and KING, Circuit Judges, and DAVIS, Senior Circuit Judge.

Dismissed by unpublished per curiam opinion.

Asmar Nafis Newsome, Appellant Pro Se.

Unpublished opinions are not binding precedent in this circuit.

PER CURIAM:

Asmar Nafis Newsome seeks to appeal the district court's order dismissing his 28 U.S.C. § 2255 (2012) motion as successive. The order is not appealable unless a circuit justice or judge issues a certificate of appealability. 28 U.S.C. § 2253(c)(1)(B) (2012). A certificate of appealability will not issue absent "a substantial showing of the denial of a constitutional right." 28 U.S.C. § 2253(c)(2) (2012). When the district court denies relief on the merits, a prisoner satisfies this standard by demonstrating that reasonable jurists would find that the district court's assessment of the constitutional claims is debatable or wrong. Slack v. McDaniel, 529 U.S. 473, 484 (2000); see Miller-El v. Cockrell, 537 U.S. 322, 336-38 (2003). When the district court denies relief on procedural grounds, the prisoner must demonstrate both that the dispositive procedural ruling is debatable, and that the motion states a debatable claim of the denial of a constitutional right. Slack, 529 U.S. at 484-85.

We have independently reviewed the record and conclude that Newsome has not made the requisite showing. Accordingly, we deny a certificate of appealability and dismiss the appeal. We dispense with oral argument because the facts and legal

contentions are adequately presented in the materials before this court and argument would not aid the decisional process.

DISMISSED
