PER CURIAM:

Paula Linville appeals the district court's order denying relief on her 42 U.S.C.A. § 1983 (West Supp. 1998) complaint. We have reviewed the record and find no reversible error. We note that although the absolute immunity of state court judges would not prevent the district court from awarding declaratory or injunctive relief, see Pulliam v. Allen, 466 U.S. 522, 541-42 (1984), the district court has no power to review constitutional challenges to the outcome of state proceedings. See District of Columbia Court of Appeals v. Feldman, 460 U.S. 462, 486 (1983).

Accordingly, we affirm the dismissal of Appellant's action and deny her motion for the appointment of counsel. We also deny her motion to expedite as moot. We dispense with oral argument because the facts and legal contentions are adequately presented in the materials before the court and argument would not aid the decisional process.
